

Test plan 1: MEGA app test plan

Properties

Area Path:	mobile QA testing - MEGA app
Iteration:	mobile QA testing - MEGA app
Owner:	Daniel Mishor
State:	Active
Start date:	יום ראשון 22 פברואר 2026
End date:	יום ראשון 01 מרץ 2026

Suite hierarchy

Static suite: MEGA app test plan (ID: 2)
Static suite: Login (ID: 3)
Static suite: Home Page (ID: 4)
Static suite: Search bar (ID: 5)
Static suite: Contacts (ID: 105)
Static suite: Uploads (ID: 127)
Static suite: Upload file (ID: 19)
Static suite: Upload folder (ID: 20)
Static suite: Plus botton (ID: 7)
Static suite: Scan doc. (ID: 21)
Static suite: Capture (ID: 22)
Static suite: New text file (ID: 23)
Static suite: Add new sync (ID: 24)
Static suite: Add new backup (ID: 25)
Static suite: Chat (ID: 30)
Static suite: Cloud (ID: 77)
Static suite: UI (ID: 8)
Static suite: Compatibility (ID: 11)
Static suite: Performance (ID: 10)
Static suite: Load (ID: 116)
Static suite: Integration (ID: 131)
Static suite: Accessibility (ID: 125)
Static suite: Security (ID: 12)
Static suite: Permissions (ID: 128)
Static suite: Network (ID: 13)
Static suite: Device behavior (ID: 14)
Static suite: Offline mode (ID: 18)

Configurations

CONFIGURATIONS IN TEST PLAN		
Id	Name	Configuration variables
2	Windows 10	Operating System: Windows 10

Run settings

MANUAL RUNS		AUTOMATED RUNS	
Settings:	None	Settings:	None
Environment:	None	Environment:	None
BUILD			
Definition:	None		
Quality:	None		
Build in use:	None		

Test suite 2: MEGA app test plan

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test suite 3: Login

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (10)

Test case 31: Login with a valid password and email

PROPERTIES	
Test Case Id:	31
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:

- User already has a registered account
- User is logged out
- App is installed

STEPS

#	Action	Expected value	Attachments
1	Open the MEGA app	Login screen appears	
2	Enter a valid email address	Email accepted	
3	Enter a valid password	Password accepted	
4	Tap Log In	User is redirected to Home screen	
5			

PARAMETERS

Shared parameter [32](#): Email and Password

LINKS

ID	WorkItemType	Link type	Title
32	Shared Parameter	References	Email and Password

Test case [33](#): Login with an invalid email

PROPERTIES

Test Case Id:	33
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:

- User already has a registered account
- User is logged out
- App is installed
- Internet connection is available

STEPS

#	Action	Expected value	Attachments
1	Open the MEGA app	Login screen appears	
2	Enter an invalid email address (Non Latin letters, characters)		
3	Enter a valid password		
4	Tap Log In	User is not redirecting to Home screen, error message appears	

Test case [34](#): Login with invalid password

PROPERTIES

Test Case Id:	34
Assigned To:	Daniel Mishor
State:	Design

STEPS

#	Action	Expected value	Attachments
1	Enter a valid email address		
2	Enter an invalid password (Non Latin letters, characters)		
3	Tap Log In	User is not redirecting to Home screen, error message appears	

Test case [35](#): Login with an empty email address

PROPERTIES

Test Case Id:	35
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:

- User already has a registered account
- User is logged out

App is installed

STEPS

#

Action

Expected value

Attachments

1 Leave the email field empty

2 Enter valid password

3 Tap log in

User is not redirecting to Home screen, error message appears

Test case 36: Login with a very long password

PROPERTIES

Test Case Id:

36

Assigned To:

Daniel Mishor

State:

Design

STEPS

Action

Expected value

Attachments

1 Tap Sign up

2 Enter first name

3 Enter last name

4 Enter a valid email address

5 Enter a very long password

6 Confirm that password

7 Select I have read and agree to MEGA's trem

8 Tap Sign Up

User can not register to the app. Redirect to the same page. Error message apepars

9

Test case 37: Password with Capslock

PROPERTIES

Test Case Id:

37

Assigned To:

Daniel Mishor

State:

Design

SUMMARY

Preconditions:

User already has a registered account

User is logged out

App is installed

Internet connection is available

STEPS

Action

Expected value

Attachments

1 Enter valid Email address

2 Enter valid password with Caps lock on

3 Tap log in

User is not redirecting to Home screen, error message appears

Test case 38: Account recovery- enter a valid email address

PROPERTIES

Test Case Id:

38

Assigned To:

Daniel Mishor

State:

Design

SUMMARY

Preconditions:

User already has a registered account

User is logged out

App is installed

Internet connection is available

STEPS			
#	Action	Expected value	Attachments
1	Tap Forget password	Redirect to account recovery page	
2	Enter valid email address		
3	Tap Start	A new temporary password will be deliver to the Email address	
4			

Test case [39](#): Account recovery - leave Email field empty

PROPERTIES	
Test Case Id:	39
Assigned To:	Daniel Mishor
State:	Design
SUMMARY	
Preconditions:	
User already has a registered account	
User is logged out	
App is installed	
Internet connection is available	

STEPS				
#	Action	Expected value	Attachments	
1	Tap Forget password	Redirect to account recovery page		
2	Double tap Start	Redirect to recovery key page		
3	Tap Yes I have my recovery key	A mail will be sending to the email address		
4	Tap No, I don't have my recovery key			

Test case [98](#): Login with an empty password

PROPERTIES	
Test Case Id:	98
Assigned To:	Daniel Mishor
State:	Design
SUMMARY	
Preconditions:	
User already has a registered account	
User is logged out	
App is installed	
Internet connection is available	

STEPS			
#	Action	Expected value	Attachments
1	Open the MEGA app	Login screen appears	
2	Enter a valid email address	Email accepted	
3	Leave the password box empty		
4	Tap Log In	User is not redirecting to Home screen, error message appears	

Test case [99](#): Enter a invalid password or email for several times - does it locks?

PROPERTIES	
Test Case Id:	99
Assigned To:	Daniel Mishor
State:	Design

STEPS			
#	Action	Expected value	Attachments
1	Enter a invalid email address or password		
2	Tap Log In	User is not redirecting to Home screen, error massage appears	
3	Enter a invalid email address or password again. Repeat this action for several times	The system locks. The user can't enter the app. Error massage has being received both in app and via email	

Test suite [4](#): Home Page

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (4)

Test case [40](#): View image from home screen

PROPERTIES

Test Case Id:	40
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

User is logged in

At least one image file exists in the Home screen

STEPS			
#	Action	Expected value	Attachments
1	Open MEGA app	Home screen is displayed	
2	Tap on selected image file	Image file is open	
3	Observe the display image	Image is displayed clearly without distortion	
4	Swipe left/ right	Next/ previous image displayed	
5	Perform zoom in/ out gesture	Image zoom in/ out smoothly	
6	Swipe down	Return to home page	
7			

Test case [41](#): Other usage of images

PROPERTIES

Test Case Id:	41
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

User is logged in

At least one image file exists in the Home screen

STEPS			
#	Action	Expected value	Attachments
1	Click the download icon	image downloaded to device	
2	Click the share link device	Redirected to Share link page	
3	Tap Copy link botton	Link copyied	
4	Click share icon	Share bar opened. choose share location	
5	Click edit icon	Redirect to edit page	

Test case [42](#): View video from home screen

PROPERTIES

Test Case Id:	42
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

User is logged in

At least one video file exists in the Home screen

STEPS

#	Action	Expected value	Attachments
1	Tap on selected video file	Video uploaded and starts smoothly	
2	Click pause	Video pauses	
3	Click play	Video continues	
4	Click anywhere on the device	Video play/ pause	
5	Click 15s forwards/ backwards	Video jumps 15s forwards/ backwards	
6	Click forward/ back	Next/ last video starts	
7	Swipe left/ right	Next/ last video starts	
8	Make zoom in/ out gestures	The video zoom in / out uninterruptedly to the video	

Test case [43](#): Other usage of video file

PROPERTIES

Test Case Id:	43
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

User is logged in

At least one video file exists in the Home screen

STEPS

#	Action	Expected value	Attachments
1	Click speed icon	Speed menu is displayed	
2	Select wanted speed	The video played with selected speed	
3	Click loop icon	The video played repatedly	
4	Click subtitles icon	A confirmation modal is displayed	
5	Select On if relevant	Subtitles are displayed accurately and continuously without interruptions	
6	Click Add subtitles	Redirected to Add subtitles page	
7	Add subtitles if relevant, tap Add subtitles botton	Subtitles are displayed accurately and continuously without interruptions	
8	Click navigation icon	Redirected to navigation page	
9	Select a video	Video start playing	
10	Click 3 dots circle icon	3 dots icon menu popped	
11	Tap Capture	Screen shot been made and saved on device	
12	Tap lock	Screen is being locked	
13	Tap on lock icon	Screen unlocked	
14	Tap anywhere on the device	Screen unlocked	
15	Click on Zoom to fill	Video zoomed in/ out	

Test suite [5](#): Search bar

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (2)

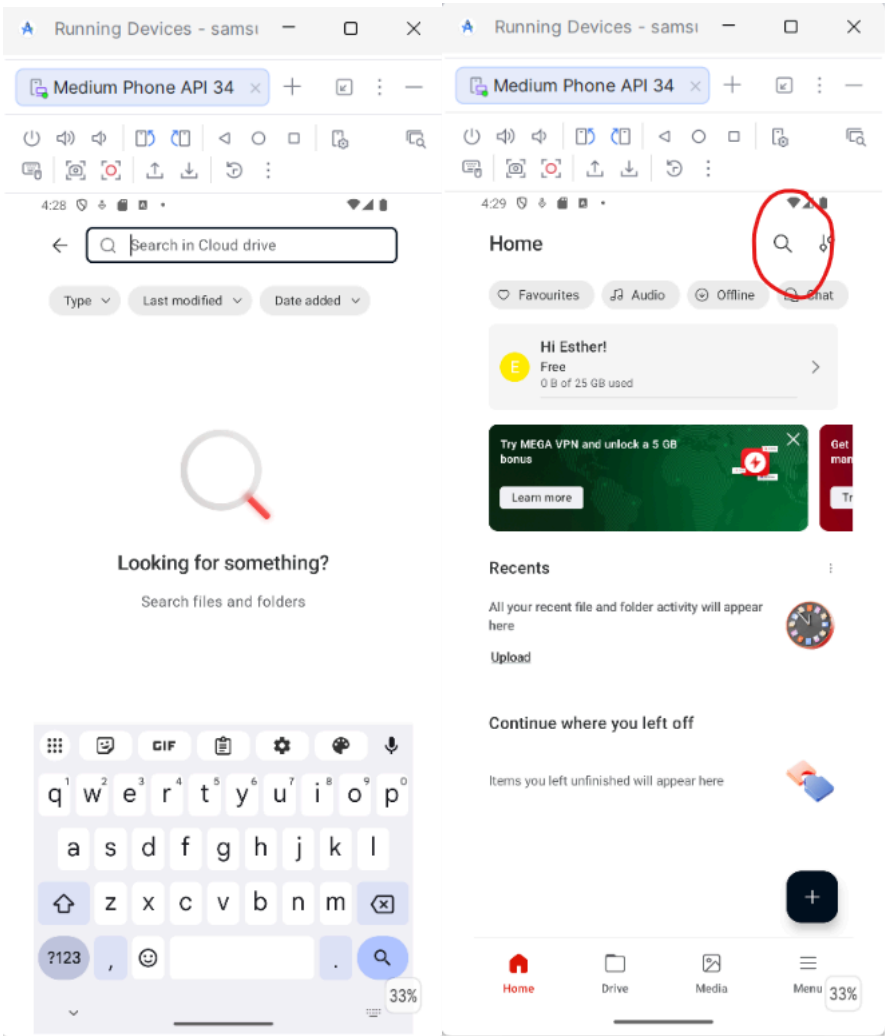

Test case [44](#): Positive search test

PROPERTIES

Test Case Id:	44
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

At least one file exists

STEPS

#	Action	Expected value	Attachments
1	Tap search icon	Redirected to search page	
2	Enter an existed file name	Existed file was found	

ATTACHMENTS

Name	Size	Date Attached	Comments
51d78021-c123-4ac8-85b3-9174239dfe5f.png	60kb	Tue Jun 30 2026	
9dae4249-9d08-49ae-bc41-645410e114cd.png	89kb	Tue Jun 30 2026	

Test case [45](#): Negative search test

PROPERTIES

Test Case Id:	45
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

At least one file exists

STEPS

#	Action	Expected value	Attachments
1	Tap search icon	Redirected to search page	
2	Enter a non existed file name	No file had found, Error message appears	

Test suite [105](#): Contacts

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (9)

Test case [104](#): Call a contact

PROPERTIES

Test Case Id:

104

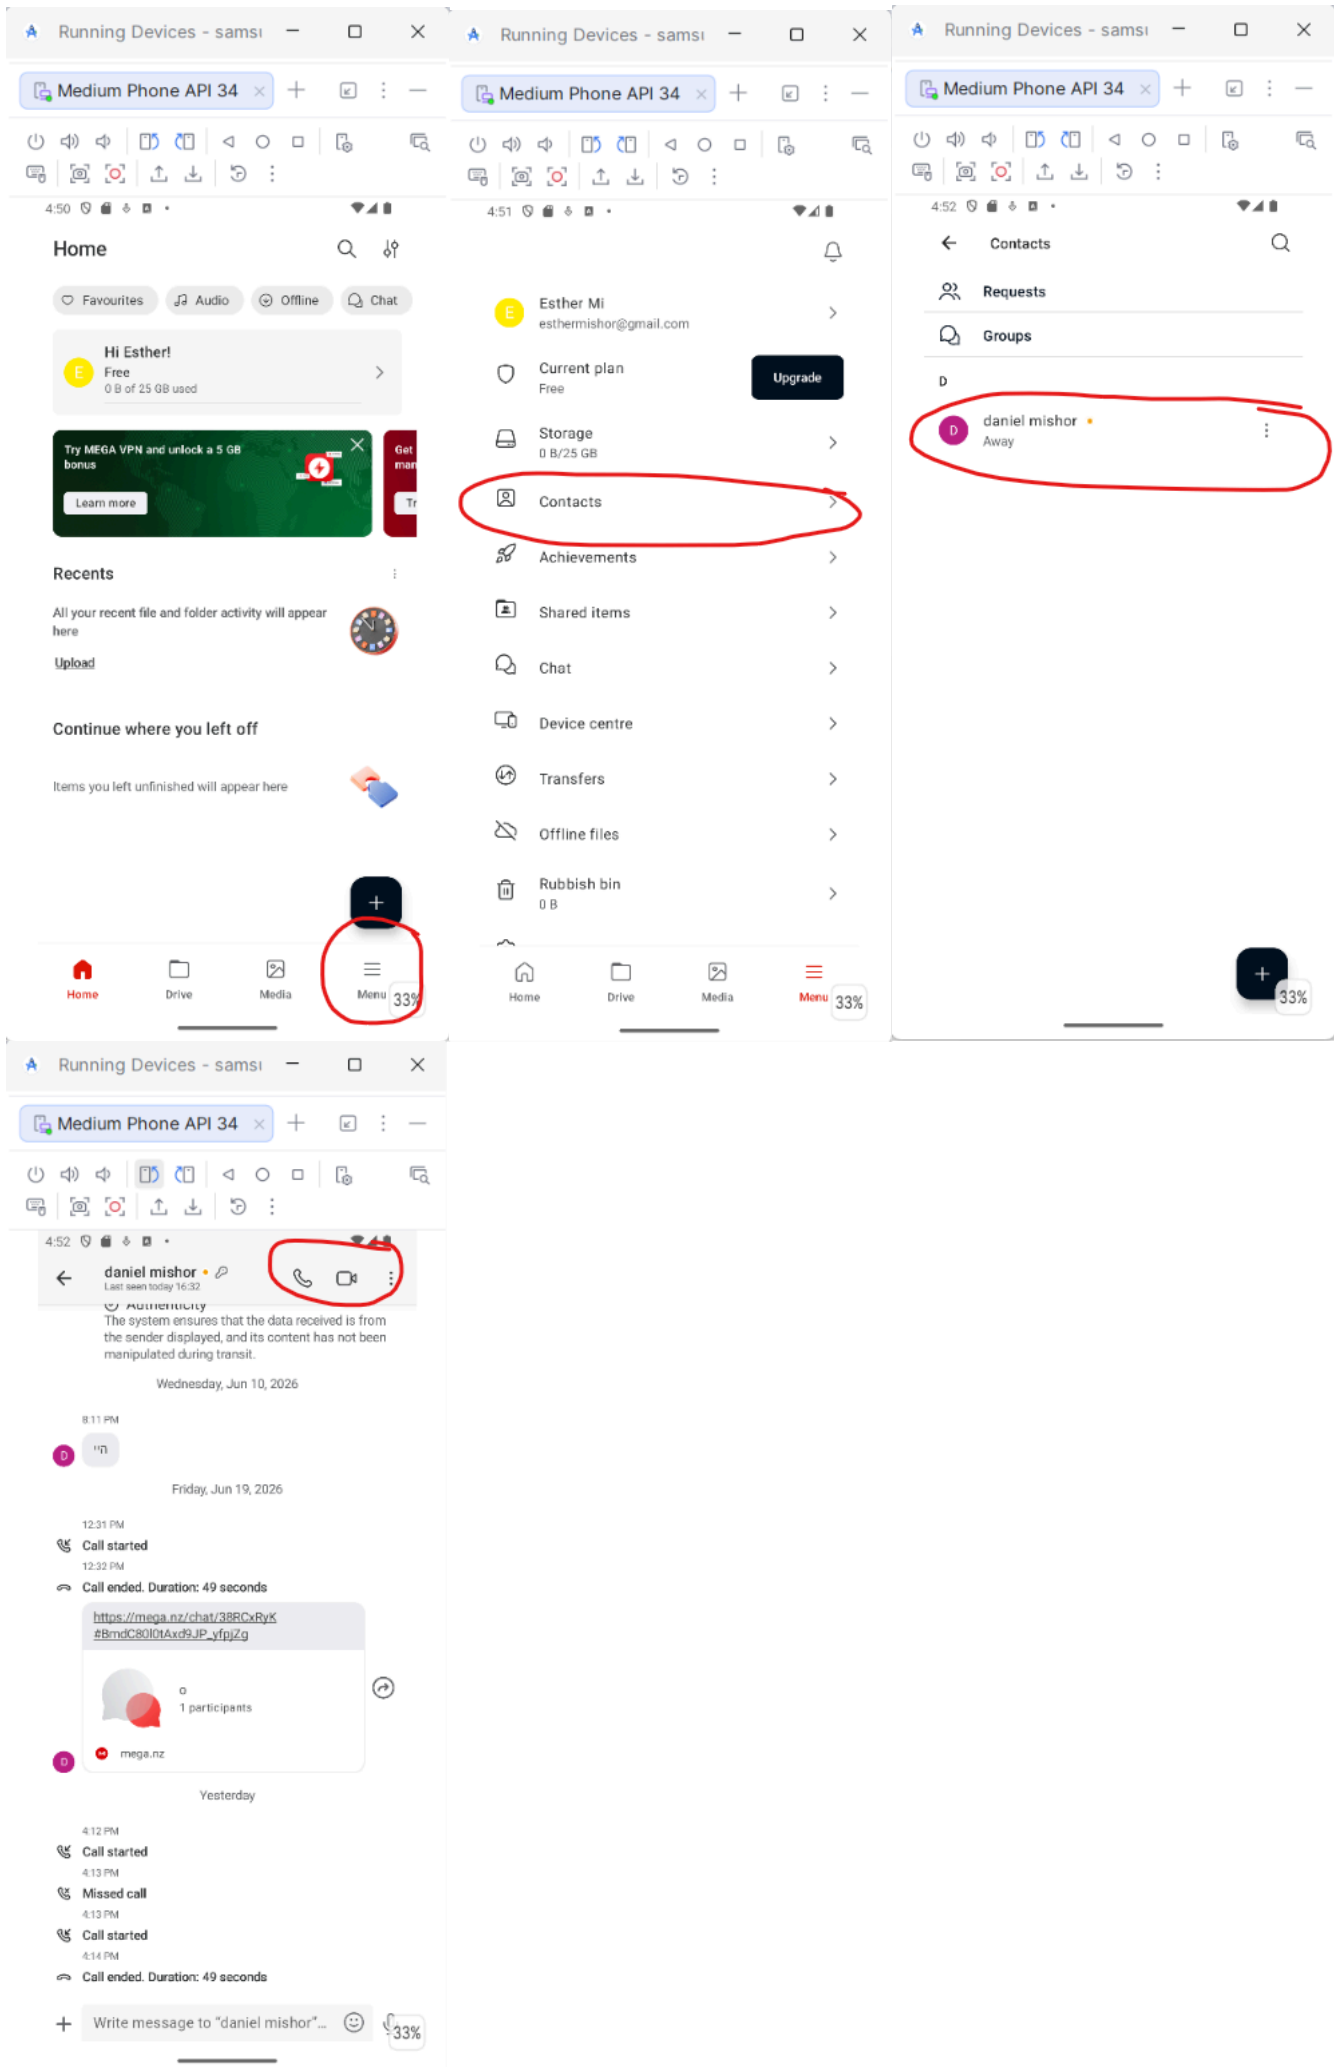

Assigned To:

Daniel Mishor

State:

Design

SUMMARY

STEPS

1
2
3
4
5

Action
Click menu in low bar
Click Contacnts
Choose a contact
Click on phone icon on top bar
Click approve on usage of microphone

Expected value
Attachments
Redirected to menu
Redirected to contacts
Redirected to contact page
Ringing to second device. Second device gets a confirmation box.
Voice call starts

Test case 91: Start video call with contact

PROPERTIES

Test Case Id:
Assigned To:
State:

91
Daniel Mishor
Design

SUMMARY

preconditions:
Another device
One friend on the app

STEPS

1

2

3
4

5

6

7

8

9

Action
Go to contact's page

Click on camera icon on the top bar

Approve usage of camera and microphone from second device

Expected value
Attachments

Ringing to second device. Second device gets a confirmation box.
Video meeting starts

Test case 92: Get out of app during video call (But leave it open in back)

PROPERTIES

Test Case Id:
Assigned To:
State:

92
Daniel Mishor
Design

SUMMARY

preconditions:
Another device
One friend on the app

STEPS

1

2

Action
Start video meeting with at least one contact

leave the app

Expected value
Attachments

Video meeting will minimized into a small window at the bottom of the screen. Sound will continue as usual

Test case 93: Phone call during video call

PROPERTIES

Test Case Id:
Assigned To:
State:

93
Daniel Mishor
Design

SUMMARY

preconditions:
One friend on the app
Another device

STEPS

#

Action

Expected value

Attachments

- 1

Start video meeting with at least one contact
- 2

Have a incoming call during meeting. Answer the call

The meeting will automatically pause and stop sharing voice and video to other devices throughout the call and will automatically turn up when the call is over

Test case 94: Message during video meeting

PROPERTIES

Test Case Id:

94

Assigned To:

Daniel Mishor

State:

Design

SUMMARY

preconditions:

One friend on the app

Another device

STEPS

#

Action

Expected value

Attachments

- 1

Enter chat mode. Have a conversation with another device (as friend)
- 2

Have an incoming message
- 3

A message alert will pop on the screen but the meeting will continue smoothly and without interruptions

Test case 95: Put meeting on hold

PROPERTIES

Test Case Id:

95

Assigned To:

Daniel Mishor

State:

Design

SUMMARY

preconditions:

One friend on the app

Another device

STEPS

#

Action

Expected value

Attachments

- 1

Enter chat mode. Have a conversation with another device (as friend)
- 2

Put meeting on hold
- 3

Audio and video are mute

Test case 106: Join Video meeting via link

PROPERTIES

Test Case Id:

106

Assigned To:

Daniel Mishor

State:

Design

STEPS

#

Action

Expected value

Attachments

- 1

Start a video meeting through chat. Enter chat menu through plus icon
- 2

Choose Meetings. Click plus icon on bottom of the screen
- 3

Choose Schedule meeting
- 4

Create a meeting name, enable meeting link. tap the V icon on top
- 5

Message sent to contact's device. Enter meeting through shared link

Redirects to meeting details
Meeting confirmed. Popup box appeared, Click share link with contact
Contact enter meeting approves

Test case 107: Verify rejected call request handling

PROPERTIES

Test Case Id:

107

Assigned To:

Daniel Mishor

State:

Design

STEPS

#

Action

Expected value

Attachments

- 1Send a call or video call request to contact
- 2Reject the call in second device

The app is ringing on second device
The call decline and the ring stops.
Microphone and camera stays off

Test case [108](#): A member that is not on contacts or unidentified can not interrupt a meeting

PROPERTIES

Test Case Id:
Assigned To:
State:

108
Daniel Mishor
Design

STEPS

#

Action

Expected value

Attachments

- 1Create a meeting with 2 or more participants at schedule with meeting link enable
- 2Click Meetings on Chat from a different device that's not on first device's contacts
- 3Tap plus icon on the bottom of the screen

SUMMARY

App is installed

Wi-fi is strong and steady
Have at least one file on the device

STEPS		Expected value	Attachments
#	Action		
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select one file or more from the folder	File is being transform into the MEGA app	
4			

Test case 47: Interruption in uploading via phone call

PROPERTIES	
Test Case Id:	47
Assigned To:	Daniel Mishor
State:	Design

SUMMARY
App is installed

Wi-fi is strong and stable
Have at least one file on the device

STEPS		Expected value	Attachments
#	Action		
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select one file or more from the folder		
4	Call the device number during transforming	Transforming continues without delayed.	

Test case 52: Interruption in uploading via text message

PROPERTIES	
Test Case Id:	52
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and stable

Have at least one file on the device

STEPS			
#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select one file or more from the folder		
4	Send a text massage (Via sms or whatsapp) the device number during transforming	Transforming continues without delayed.	

Test case [48](#): Go out of the app during uploading

PROPERTIES		
Test Case Id:	48	
Assigned To:	Daniel Mishor	
State:	Design	
SUMMARY		
App is installed		
Wi-fi is strong and steady		
Have at least one file on the device		

STEPS			
#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select one file or more from the folder		
4	Go out of the app during transforming	Transforming continues without delayed.

Properties	
State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (4)

Test case [54](#): Upload a folder

PROPERTIES		
Test Case Id:	54	
Assigned To:	Daniel Mishor	
State:	Design	
SUMMARY		
Preconditions:		
App is installed		
Wi-fi is strong and steady		
Have at least one folder on the device		

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to the folder on the device	
3	Select one folder	Folder opened	
4	Click "Use this folder"	A confirmation dialog is displayed.	
5	Click on "Yes, it's alright"	The folder has been transformed to the app. Every new file on the folder from now on will automatically transform to the app	

Test case 55: Interruption in uploading folder via phone call

PROPERTIES

Test Case Id:	55
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and stable

Have at least one folder on the device

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to the folders on the device	
3	Select one folder		
4	Call the device number. Answer the call	The folder had been transformed as usual	
5			

Test case 56: Interruption in uploading folder via text message

PROPERTIES

Test Case Id:	56
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and stable

Have at least one file on the device

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to the folders on the device	
3	Select one folder		
4	Send a text message to the device	The folder had been transformed as usual	
5			

Test case [57](#): Go out of the app during uploading folder

PROPERTIES

Test Case Id:	57
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and steady

Have at least one file on the device

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to the folders on the device

Configurations:	Windows 10

Test suite [21](#): Scan doc.

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (5)

Test case [61](#): Scan a document

PROPERTIES

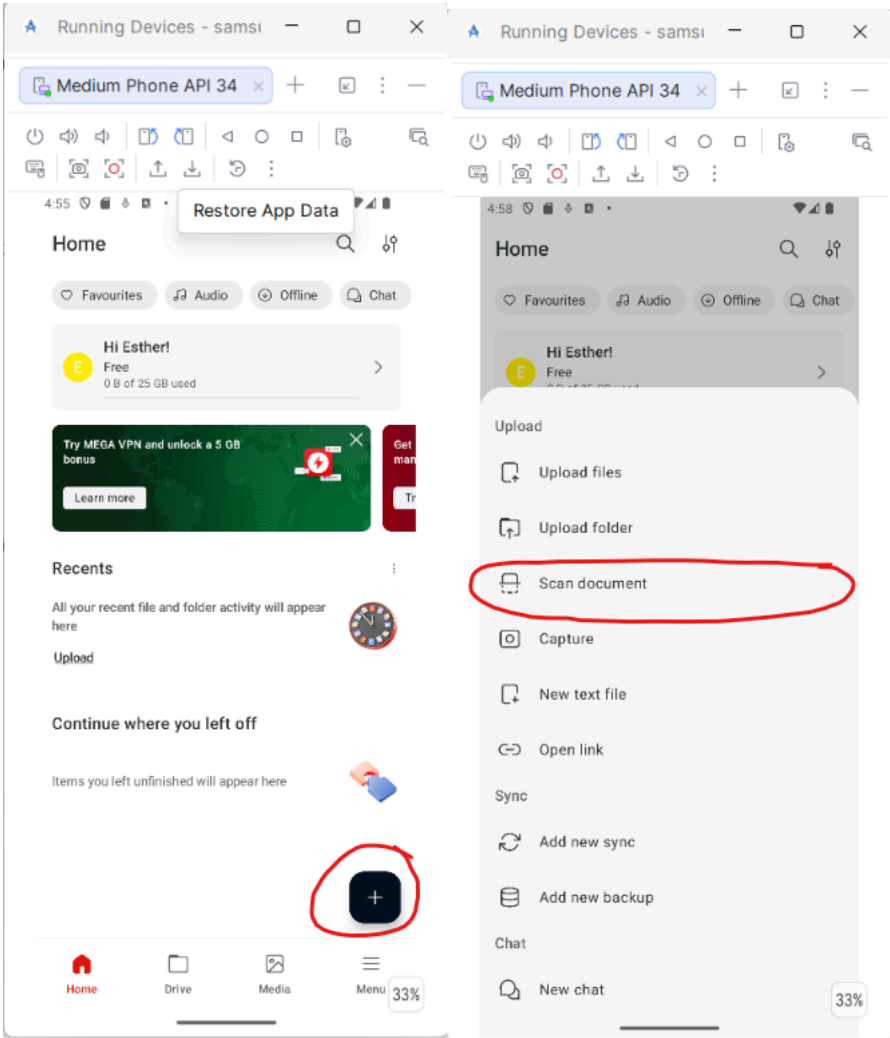

Test Case Id:	61
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:

The device camera is functional

A printed paper

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on Scan document	Redirect to scan mode, camera opnes	
3	Scan a printed paper	The camera will choose only the printed part of the paper	
4	Click scan	Scan the document and redirected to edit pager	
5	Tap next	The file had been saved on the device and on the cloud	
6			

Test case [62](#): Scan document offline

PROPERTIES

Test Case Id:	62
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

A offline mode
The device camera is functional

A printed paper

STEPS

#	Action	Expected value	Attachments
1	Create a offline setting\ airplane mode		
2	Tap on the plus icon	Upload menu display	
3	Click on Scan document	Redirect to scan mode, camera opens	
4	Scan a printed paper	The camera will choose only the printed part of the paper	
5	Click scan	Scan the document and redirected to edit pager	
6	Tap next	The file had been saved on the device and on the cloud	
7			

Test case 63: Scan many documents

PROPERTIES

Test Case Id:	63
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

A printed paper

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on Scan document	Redirect to scan mode, camera opens	
3	Scan a printed paper	The camera will choose only the printed part of the paper	
4	Click scan	Redirected to edit pager	
5	Tap next	The file had been saved on the device and on the cloud	
6	Repeat the situation for many times	The scan works as usual every time	

Test case 64: Go out of the app in scan mode

PROPERTIES

Test Case Id:	64
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

A printed paper

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on Scan document	Redirect to scan mode, camera opens	
3	Scan a printed paper	The camera will choose only the printed part of the paper	
4	Click scan, leave the app during scanning and come back	Scan the document and redirected to edit pager as usual	
5			

Test case 65: Scan document on automatic mode

PROPERTIES

Test Case Id:	65
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

A printed paper

STEPS			
#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on Scan document	Redirect to scan mode, camera opens	
3	Switch to automatic automatic mode		
4	Set the cam on the document and stay still	The document had been scanned and had been save on the device and on the cloud

Test cases (7)

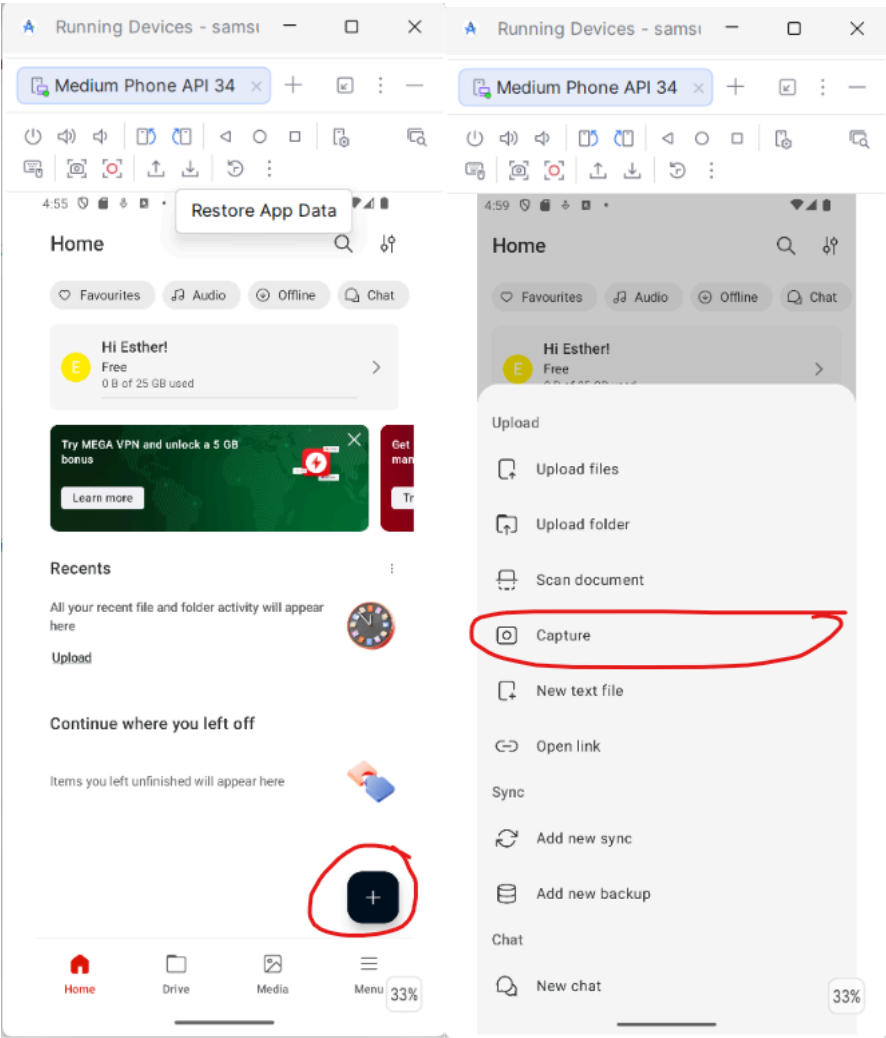

Test case 66: Capture mode on photo

PROPERTIES

Test Case Id:	66
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:
The device camera is functional

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	Click shoot	Camera is taking a picture, the file had been saved at the app at the end of the film	
4			

Test case [67](#): Capture mode on video

PROPERTIES

Test Case Id:	67
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	Switch to video mode, click shoot	The camera is recording.	
4	Click stop (on the same button)	The movie has been made and saved in the device and cloud	

Test case [68](#): Capture mode with a non functional camera

PROPERTIES

Test Case Id:	68
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is not functional

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon with a non functional camera	Upload menu display	
2	Click on capture	Camera mode does not open. Error message appears	

Test case [69](#): Leave the app while recording

PROPERTIES

Test Case Id:	69
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	Switch to video mode, click shoot	The camera is recording.	
4	Leave the app during recording	The recording stops, camera turns off. the record is being save in the app and the cloud	

Test case [70](#): Incoming call during video recording

PROPERTIES

Test Case Id:	70
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

Location with good reception
A second usable phone

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	Switch to video mode, click shoot	The camera is recording.	
4	Call the device from another phone, take the call	The recording stops, camera turns off. the record is being save in the app and the cloud	

Test case 71: Battery runs out during video recording

PROPERTIES

Test Case Id:	71
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

Battery almost empty

STEPS

#	Action	Expected value	Attachments
1	The device camera is functional	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	Switch to video mode, click shoot	The camera is recording.	
4	Battery runs out during recording	the record is being save in the app and the cloud	

Test case 72: Capture on offline mode\ airplane mode

PROPERTIES

Test Case Id:	72
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

The device camera is functional

Internet reception is off\ Device in airplane mode

STEPS

#	Action	Expected value	Attachments
1	Tap on the plus icon on offline\ airplane mode	Upload menu display	
2	Click on capture	Camera mode open, camera opens	
3	click shoot on photo mode	The camera is shooting, the file is being save in the app and the cloud	
4

State:	Design

SUMMARY

App is installed

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Upload menu displayed	
2	Click on new text file	A new text file modal window is displayed	
3	fill text name and click create	Redirected to text file	
4	Fill the text with at least 1 character, click save	The file had been saved on the device and on the cloud	

Test case [74](#): Create a text file with no title

PROPERTIES

Test Case Id:	74
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Tap the plus icon	
2	Click on new text file	A new text file modal window is displayed	
3	Leave the title space blank	Text file is not opening. Error message appears	

Test case [75](#): Create a blank text file

PROPERTIES

Test Case Id:	75
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Upload menu displayed	
2	Click on new text file	A new text file modal window is displayed	
3	fill text name and click create	Redirected to text file	
4	Leave the text with no characters, click save	Text is not being save, Error message appears	
5			

Test suite [24](#): Add new sync

Test cases (7)

Test case [76](#): Sync a new folder

PROPERTIES

Test Case Id:	76
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

At least one folder
usage of the cloud
Internet browser

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Upload menu displayed	
2	Click on add new sync	Redirected to sync page	
3	Click device folder	Redirected to device folders	
4	Choose a folder	Entered the folder	
5	Tap Choose this folder	The folder has been sync on the cloud. Redirected to the app	
6	Go to cloud drive on the low bar. Click syncs	The folder has been synced to the app	
7	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder has been synced to the web	
8			

Test case [78](#): Changes in the synced folder- change file title

PROPERTIES

Test Case Id:	78
Assigned To:	Daniel Mishor
State:	Design
SUMMARY	
App is installed	
At least one folder with at least one file	
usage of the cloud	
Internet browser	

STEPS		Expected value	Attachments
#	Action		
1	Enter to chosen sync folder. Choose a file and change the title		
2	Go to the app. click cloud drive on the low bar. Click syncs	The folder changes has been synced to the app	
3	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder changes has been synced to the app	

Test case [79](#): Changes in the synced folder- Add a new file

PROPERTIES	79
Test Case Id:	Daniel Mishor
Assigned To:	Design
State:	
SUMMARY	
App is installed	
At least one folder	
usage of the cloud	
Internet browser	

STEPS		Expected value	Attachments
#	Action		
1	Enter to chosen sync folder. Add a new file		
2	Go to cloud drive on the low bar. Click syncs	The folder changes has been synced to the app	
3	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder changes has been synced to the app	

Test case [80](#): Changes in the synced folder- delete a file

PROPERTIES	80
Test Case Id:	Daniel Mishor
Assigned To:	Design
State:	
SUMMARY	
App is installed	
At least one folder with at least one file	
usage of the cloud	
Internet browser	

STEPS		Expected value	Attachments
#	Action		
1	Enter to chosen sync folder. Choose a file and delete it		
2	Go to the app. click cloud drive on the low bar. Click syncs	The folder changes has been synced to the app	
3	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder changes has been synced to the app	
4			

Test case [81](#): Sync a very heavy folder

PROPERTIES	81
Test Case Id:	Daniel Mishor
Assigned To:	Design
State:	

SUMMARY

App is installed

At least one very heavy folder
usage of the cloud
Internet browser

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Upload menu displayed	
2	Click on add new sync	Redirected to sync page	
3	Click device folder	Redirected to device folders	
4	Choose a very heavy folder (hundreds of MB or more)	Entered the folder	
5	Tap Choose this folder	The folder has been sync on the cloud in a reasonable time with no delays or interruptions . Redirected to the app	
6	Go to cloud drive on the low bar. Click syncs	The folder has been synced to the app	
7	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder has been synced to the app	

Test case [82](#): Sync a folder in a low wi fi or bad internet reception

PROPERTIES

Test Case Id:	82
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Low reception internet
App is installed

At least one folder
usage of the cloud
Internet browser

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in a low internet reception	Upload menu displayed	
2	Click on add new sync	Redirected to sync page	
3	Click device folder	Redirected to device folders	
4	Choose a folder	Entered the folder	
5	Tap Choose this folder	The folder has been sync on the cloud in a reasonable time with no delayed or interruption. Redirected to the app	
6	Go to cloud drive on the low bar. Click syncs	The folder has been synced to the app	
7	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder has been synced to the app	

Test case [83](#): Leave the app while syncing

PROPERTIES

Test Case Id:	83
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

At least one folder
usage of the cloud
Internet browser

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon	Upload menu displayed	
2	Click on add new sync	Redirected to sync page	
3	Click device folder	Redirected to device folders	
4	Choose a folder	Entered the folder	
5	Tap Choose this folder. leave the folder during the sync	The folder has been sync as usual	
6	Go to cloud drive on the low bar. Click syncs	The folder has been synced to the app	
7	Go to https://mega.nz/ and choose cloud drive on the left bar	The folder has been synced to the web	

Test suite [25](#): Add new backup

Properties

State:	In Progress

Test cases (6)	

Test case [85](#): Invite a friend to contacts

PROPERTIES		85 Daniel Mishor Design
Test Case Id:		
Assigned To:		
State:		
SUMMARY		
Preconditions:		
At least one contact with MEGA app installed		
Accept friendship		

STEPS

#	Action	Expected value	Attachments
1	Click on Chat	Redirected to chat page	
2	Tap Invite a friend	Redirected to invite page	
3	Tap Allow access	Confirmation box popped in	
4	Click Ok	Redirected to ccontacts	
5	Choose one contact and click Ok	Click send	
6	Text message has been sent to contact		

Test case 86: Accept a friendship request from contact

PROPERTIES

Test Case Id:	86
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:
At least one contact
with MEGA app installed
Accept friendship

STEPS

#	Action	Expected value	Attachments
1	Use a second mobile phone MEGA app as different user. send request. follow TC 85		
2	Go back to main device. Click Chat.	Enter chat page	
3	Requests button appears. Click request. pop up box appears. tap approve	A new friend had been accepted	

Test case 87: Have a chat

PROPERTIES

Test Case Id:	87
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Preconditions:
At least one contact
with MEGA app installed
Accept friendship

STEPS

#	Action	Expected value	Attachments
1	Enter chat. click on any of second device title.		
2	Write a message	Message has been received on second device	

Test case 88: Have a chat with bad reception

PROPERTIES

Test Case Id:	88
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

preconditions:
Area with bad reception
One friend on the app

STEPS

#	Action	Expected value	Attachments
1	Create enviornment with bad reception		
2	Enter chat page. Send message to friend.	Message had sent	
3	Have a conversation	Conversation is being made seamlessly without any failures	

Test case 89: Interruption during chat via phone call

PROPERTIES

Test Case Id:	89
Assigned To:	Daniel Mishor
State:	Design

SUMMARY
preconditions:
One friend on the app
Another device

STEPS			
#	Action	Expected value	Attachments
1	Enter chat mode. Have a conversation with another device (as friend)		
2	Have a income call. answer the phone	The call paused. Camera and microphone immediately stops	
3		Conversation continued smoothly from last place as soon as call ends	
4			

Test case [90](#): Battery "died" during chat

PROPERTIES	
Test Case Id:	90
Assigned To:	Daniel Mishor
State:	Design

SUMMARY
preconditions:
Device with very low bar battery
One friend on the app

STEPS			
#	Action	Expected value	Attachments
1	Have device with low bar battery		
2	Have conversation with another device (as friend)		
3	Battery emptied out ("died")	Phone shuts down	
4	Recharge battery. Open the device. Re-enter the chat	Chat continues with all the massages and data saved	
5			

Test suite [77](#): Cloud

Properties

State:	In Progress

Configurations:	Windows 10

Test cases (2)

Test case [96](#): Are MEGA app files on cloud?

PROPERTIES	
Test Case Id:	96
Assigned To:	Daniel Mishor
State:	Design

STEPS			
#	Action	Expected value	Attachments
1	Enter https://mega.nz/fm/Go5hxKDT from any device	All files on the app (mobile device) are on website (Cloud)	
2			

Test case [97](#): Delete file on the cloud

PROPERTIES	
Test Case Id:	97
Assigned To:	Daniel Mishor
State:	Design

STEPS			
#	Action	Expected value	Attachments
1	Enter https://mega.nz/fm/Go5hxDt from any device		
2	Delete one file from the cloud	File deleted from the app on mobile device	

Test suite 8: UI

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (3)

Test case 114: App behavior in horizontal mode

PROPERTIES			
Test Case Id:	114		
Assigned To:	Daniel Mishor		
State:	Design		
STEPS			
#	Action	Expected value	Attachments
1	Flip the phone during app use to horizontal mode	App menus, icons, graphics aligned automatically to horizontal. 100% use of screen	

Test case 123: Is there a visual user feedback while downloading

PROPERTIES			
Test Case Id:	123		
Assigned To:	Daniel Mishor		
State:	Design		
STEPS			
#	Action	Expected value	Attachments
1	Download a file via app	A visual indicator appears, such as a download progression bar or a system notification that indicates the start and the completion of the download	

Test case 124: Zoom in and out during usage - is the fonts, icons and images scale in proportion?

PROPERTIES			
Test Case Id:	124		
Assigned To:	Daniel Mishor		
State:	Design		
STEPS			
#	Action	Expected value	Attachments
1	Zoom the screen in and out using two fingers or through settings	The fonts, icons and images resize proportionally and stays in original resolution	

Test suite 11: Compatibility

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (3)

Test case 109: Do the smoke \ sanity tests on PC - Google chrome browser

PROPERTIES			
Test Case Id:	109		
Assigned To:	Daniel Mishor		
State:	Design		
SUMMARY			
Preconditions : Pre-registered MEGA website			
STEPS			
#	Action	Expected value	Attachments
1	Do all the sanity / smoke tests on the web	All crucial tests passed successfully	

Test case [110](#): Do the smoke / sanity tests on ios device

PROPERTIES			
Test Case Id:		110	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Do all the sanity / smoke tests on ios powered device	All crucial tests passed successfully	

Test case [111](#): Do smoke / sanity tests on Linux

PROPERTIES			
Test Case Id:		111	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Do all the sanity / smoke tests on the web	All crucial tests passed successfully	

Test suite [10](#): Performance

Properties	
State:	In Progress
Type:	Static Suite
Configurations:	Windows 10
Test cases (12)	

Test case [49](#): Upload a heavy file

PROPERTIES			
Test Case Id:		49	
Assigned To:		Daniel Mishor	
State:		Design	
SUMMARY			
App is installed			
Wi-fi is strong and steady			
Have at least one very heavy file on the device			
STEPS			
#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select a very heavy file (hundreds of MB or more)	The file transformed to the app smoothly and in a reasonable time	
4			

Test case [53](#): Upload a lot of heavy files together

PROPERTIES			
Test Case Id:		53	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select a lot of very heavy files (hundreds of MB or more)	The files transformed to the app smoothly and in a reasonable time	

Test case [50](#): Upload files one by one for a long period of time

PROPERTIES	
Test Case Id:	50
Assigned To:	Daniel Mishor
State:	Design
SUMMARY	
App is installed	

Wi-fi is strong and steady
Have as many files as possible on the device

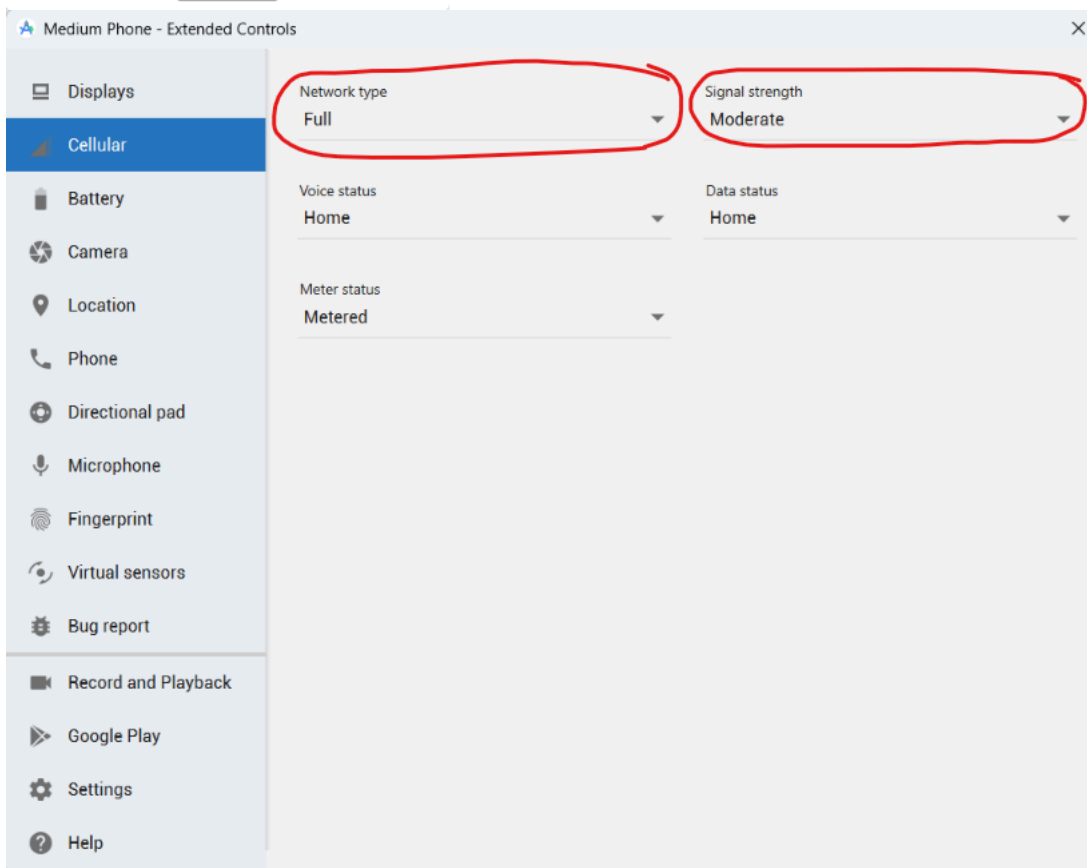

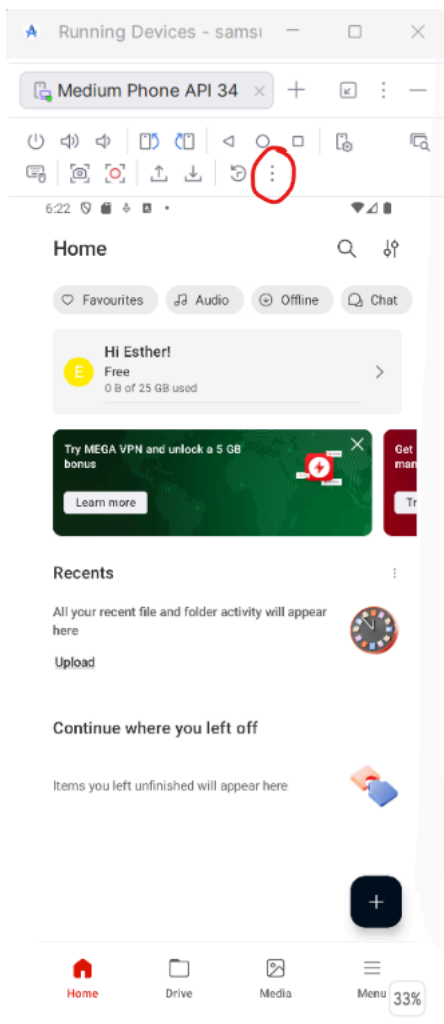

STEPS			
#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload files	Redirected to Files folder on the device	
3	Select one file or more from the folder	File is being transform into the MEGA app	
4	Repeat the situation for many times as possible	The files has being transformed to the app every time smoothly	

Test case [51](#): Upload file with bad reception

PROPERTIES	
Test Case Id:	51
Assigned To:	Daniel Mishor
State:	Design

SUMMARY
Creating a bad reception atmosphere
To conduct a series of performance tests on the device

Preconditions:
Android emulator downloaded
MEGA app downloaded and installed in the emulator

STEPS

#	Action	Expected value	Attachments
1	Create bad reception on an emulator. Go to Android emulator.		
2	Click 3 dots on the bottom of the side menu - Extended controls.		
3	Go to Cellular. On Network type choose UMTS or GPRS		
4	Upload file on the emulator	File is being download to the app. It may take more time but downloading smoothly	
5			
6			
7			

Test case [58](#): Upload a heavy folder

PROPERTIES

Test Case Id:	58
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and steady
Have at least one very heavy folder on the device

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to folders on the device	
3	Select a very heavy folder with hundreds of MB or more on the device (No matter the number of files on the folder)	The folder transformed to the app smoothly and in a reasonable time	

Test case [59](#): Upload folders one by one for a long period of time

PROPERTIES

Test Case Id:	59
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is strong and steady
Have as many folders as possible on the device

STEPS

#	Action	Expected value	Attachments
1	Tap the plus icon in the home page	Upload menu popped	
2	Click Upload folder	Redirected to folders on the device	
3	Select one file folder	Folder is being transform into the MEGA app	
4	Repeat the situation for many times as possible	The folders has being transformed to the app every time smoothly	

Test case [60](#): Upload folder with bad reception- test on Android emulator

PROPERTIES

Test Case Id:	60
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

App is installed

Wi-fi is unstable
Have at least one file on the device

STEPS

1

2

3

4

Action
Repeat steps 1-3 in TC 51

Upload a folder

Expected value

Folder is downloading even slower if needed but smoothly and steady

Attachments

Test case 112: Upload heavy file with bad reception environment - test on Android emulator

PROPERTIES

Test Case Id: 112
Assigned To: Daniel Mishor
State: Design

SUMMARY

Android emulator downloaded
MEGA app downloaded and installed in the emulator

STEPS

1

2

Action
Repeat steps 1-3 in TC 51

download a heavy file with bad reception environment

Expected value

The file is downloading slowly but steady. If the reception is very bad a warning message pops and alert the user that the download is impossible. File will not download

Attachments

Test case 113: Start a video call with bad reception - test on Android emulator

PROPERTIES

Test Case Id: 113
Assigned To: Daniel Mishor
State: Design

SUMMARY

Android emulator downloaded
MEGA app downloaded and installed in the emulator

STEPS

1

2

Action
Repeat steps 1-3 from TC 51

Make a video call from emulator to another device

Expected value

The call will work with no delays or interruptions. Resolution will drop if necessary but video and audio will work smoothly. If the reception enable the call from occurring warning message will pop and alert the user. Video call will not start

Attachments

Test case 120: Downloading a very heavy file during video call

PROPERTIES

Test Case Id: 120
Assigned To: Daniel Mishor
State: Design

SUMMARY

A very heavy file - more then 1 GB

STEPS

1

2

Action
Download a very heavy file (e.g. 1GB mp4 file) on the device

Start a video call on the app

Expected value

The call take place smoothly without any issues and disturbances. The server maintained low bandwidth consumption during the call. The battery not drained out during the call. The battery remains cool during the call and afterwards and do not get hot

Attachments

3

Test case [122](#): Video call with a low battery - under 15%

PROPERTIES			
Test Case Id:	122		
Assigned To:	Daniel Mishor		
State:	Design		

SUMMARY
A mobile device with low battery under 15%

STEPS			
#	Action	Expected value	Attachments
1	Start a video call when battery is under 15%		
2	Continue call until battery reaches 5%	The call disconnecting and a warning message appears on both devices	

Test case [133](#): Get on and off from video call several times - duration test

PROPERTIES			
Test Case Id:	133		
Assigned To:	Daniel Mishor		
State:	Design		

STEPS			
#	Action	Expected value	Attachments
1	Start a video call. Get off from it after a few seconds.		
2	Repeat step 1 for 5 times	App does not crush. Camera and microphone closed every time the call closes	

Test suite [116](#): Load

Properties

Thread Group

Name: Thread Group - normal rate

Comments:

Action to be taken after a Sampler error

☒ Continue ☐ Start Next Thread Loop ☐ Stop Thread ☐ Stop Test ☐ Stop Test Now

Thread Properties

Number of Threads (users): 50

Ramp-up period (seconds): 10

Loop Count: ☐ Infinite ☒ 1

☒ Same user on each iteration

☐ Delay Thread creation until needed

☐ Specify Thread lifetime

Duration (seconds):

Startup delay (seconds):

STEPS

#

Action

Expected value

Attachments

- 1

Open JMeter and load the File_Download_Load_Test.jmx script.
- 2

Configure the Thread Group to 50 users with a 10-second ramp-up. Loop count on 1
- 3

Click start
- 4
- 5

On summery report: Success rate will be 0%
Average response time under 1500ms

The server process all requests without high latency or crashes

Test case [117](#): Load test server level - stress test / test on Jmeter - peak time - 1000 threads / 5 sec / 5 loops

PROPERTIES

Test Case Id:117

Assigned To:Daniel Mishor

State:Design

SUMMARY

Apache JMeter installed and configured

Valid API Endpoint URL and Authorization Token for the QA environment

STEPS

#

Action

Expected value

Attachments

- 1

Follow step 1 from TC 115
- 2

Configure the Thread Group to 1000 users with a 5-second ramp-up. Loop count on 5
- 3

Click start
- 4
- 5
- 6

Identify Breaking Point: The exact system breaking point (the number of concurrent users where Error % rises above 0% or Average Response Time spikes drastically) is successfully identified and documented.

Graceful Degradation: The local server must handle traffic gracefully without fully crashing, freezing, or requiring a manual restart.

Proper Error Codes: When the server reaches maximum capacity, it should return appropriate HTTP load error status codes (e.g., 503 Service Unavailable or 429 Too Many Requests) rather than generic application crashes (500 Internal Server Error).

System Recovery: Once JMeter stops sending virtual users, the server must automatically recover and return to its baseline performance within 60 seconds.

Test case [118](#): Load test server level - test on Jmeter - endurance test / normal rate for long duration - 50 threads / 10 sec / infinite loops

PROPERTIES

Test Case Id:118

Assigned To:Daniel Mishor

State:Design

SUMMARY

Apache JMeter installed and configured

Valid API Endpoint URL and Authorization Token for the QA environment

STEPS

#	Action	Expected value	Attachments
1	follow step 1 from TC 115		
2	Configure the Thread Group to 50 users with a 10-second ramp-up. Loop count as infinite	Response Time Stability: The Average Response Time during the last 5 minutes of the test execution must remain stable and close to the baseline measured during the first 5 minutes (allowing a maximum variance of 15%-20%).	
3			
4		Consistent Throughput: The Throughput (requests per second) remains steady throughout the entire testing window, showing no gradual degradation in server performance.	

Test case [119](#): Load test server level - test on Jmeter - volume test / normal rate -

PROPERTIES

Test Case Id:	119
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Apache JMeter installed and configured

Valid API Endpoint URL and Authorization Token for the QA environment
A large test file (e.g., a 1GB .mp4 video) is hosted on the local server

STEPS

#	Action	Expected value	Attachments
1	In the HTTP Request , set the Path to point directly to the large file endpoint (e.g., <code>/api/v1/media/large_test_video.mp4</code>).		
2	Configure the Thread Group to 10 users with a 5-second ramp-up. Loop count on 1		
3	Open the system's Task Manager (or Activity Monitor) to observe the local server's CPU and RAM usage.		
4	Click play		
5	Monitor the Summary Report and View Results Tree until the test completes.		
6		Data Integrity (0% Error Rate): The server successfully streams and delivers the large media files completely to all concurrent virtual users. The JMeter Summary Report must display 0.00% errors.	
7			
8		No Connection Timeouts: No requests are aborted or dropped mid-transfer (No Connection Timeout or Connection Reset errors).	
		Resource Release: Immediately after the file downloads are completed, the local server must successfully free up and release the allocated memory (RAM) and return the system to idle state.	

Test case [136](#): Load test device level - test on Jmeter and Android emulator - normal rate - normal usage

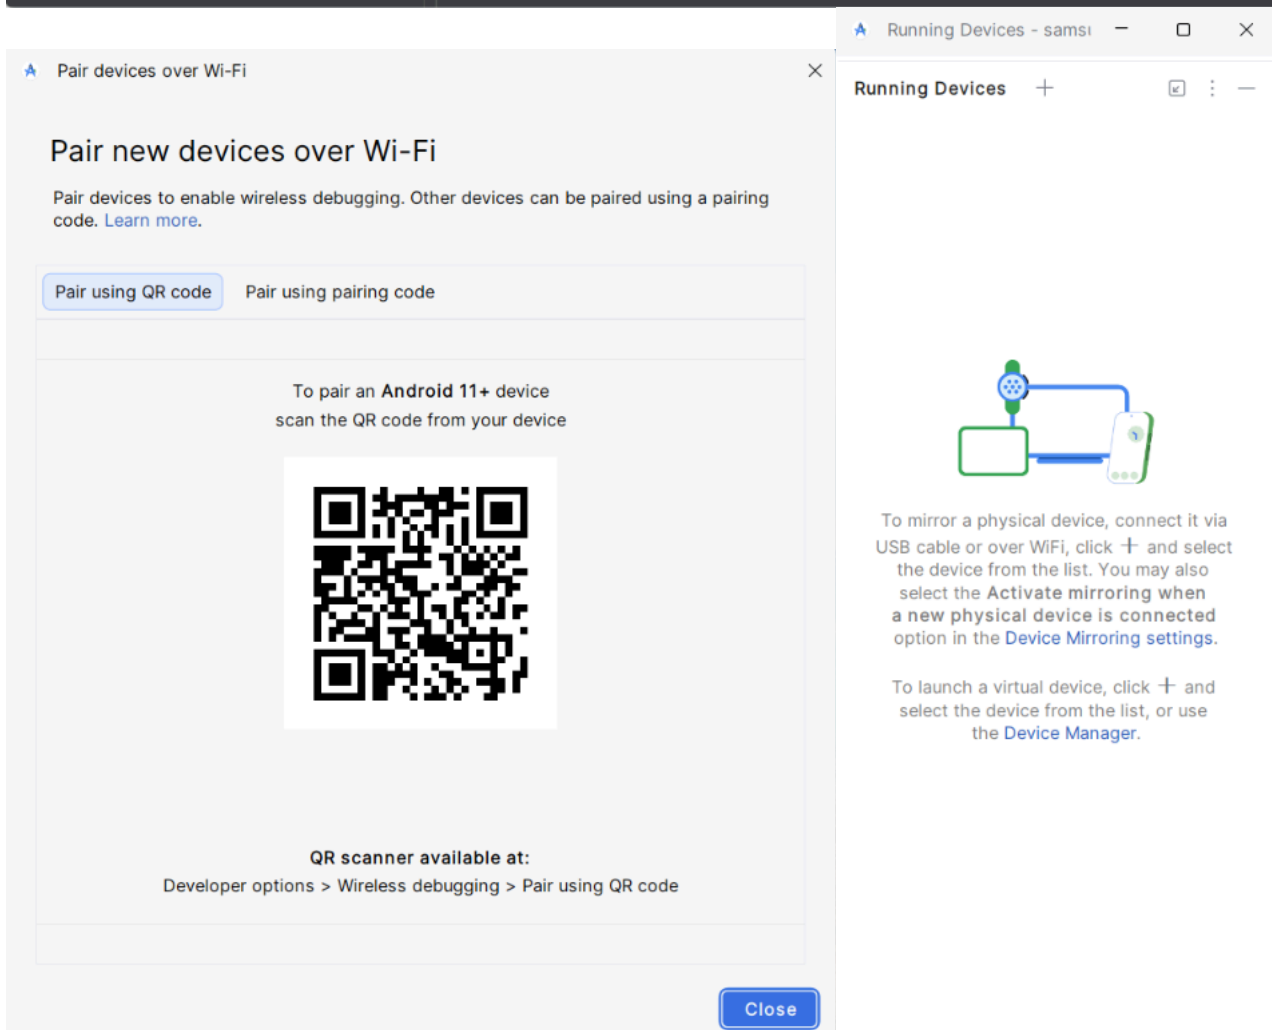

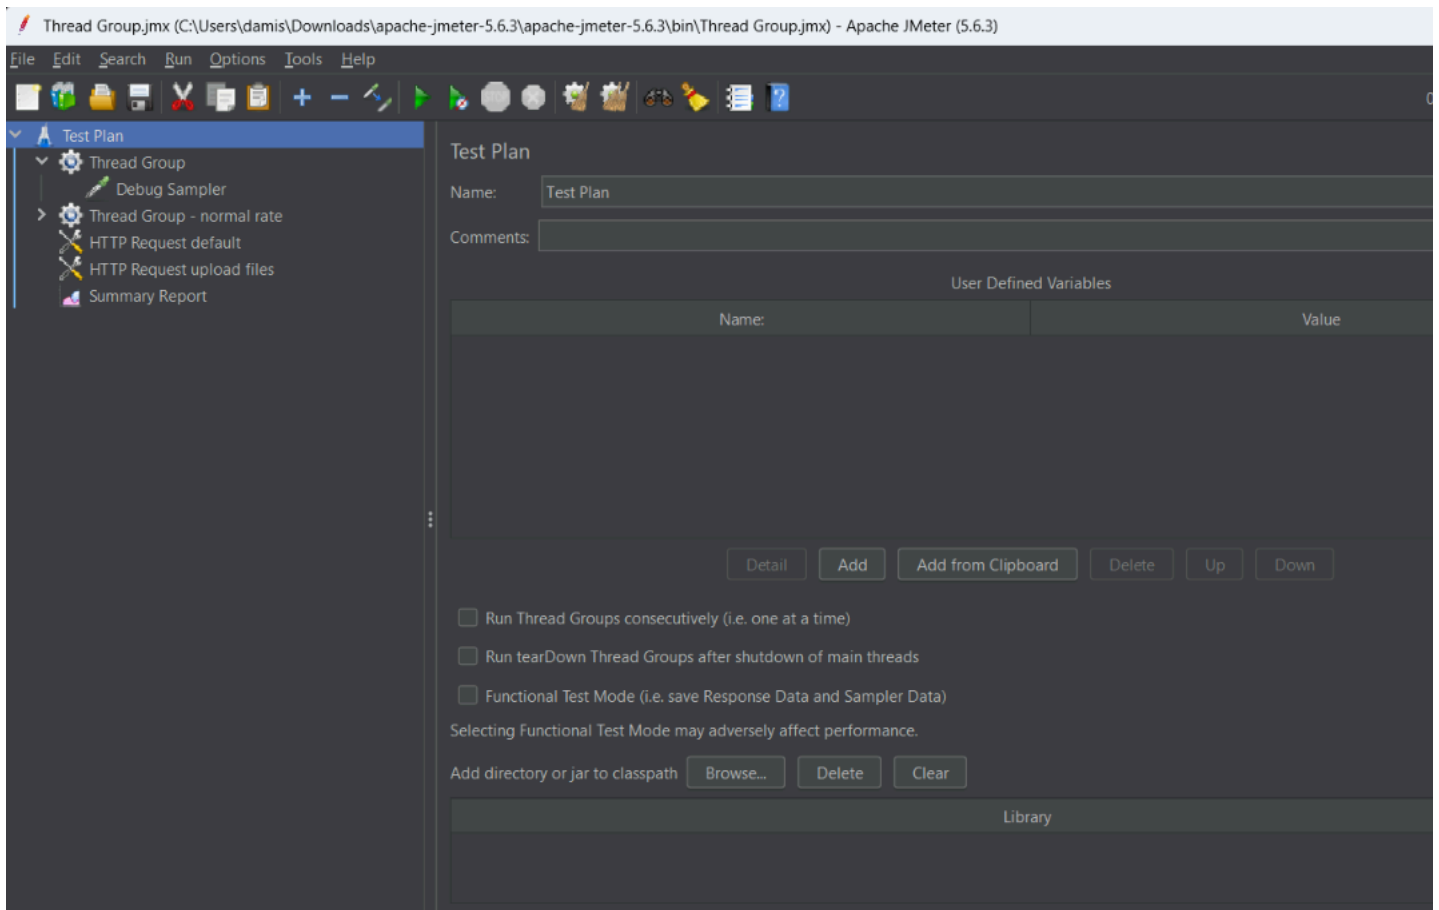

PROPERTIES

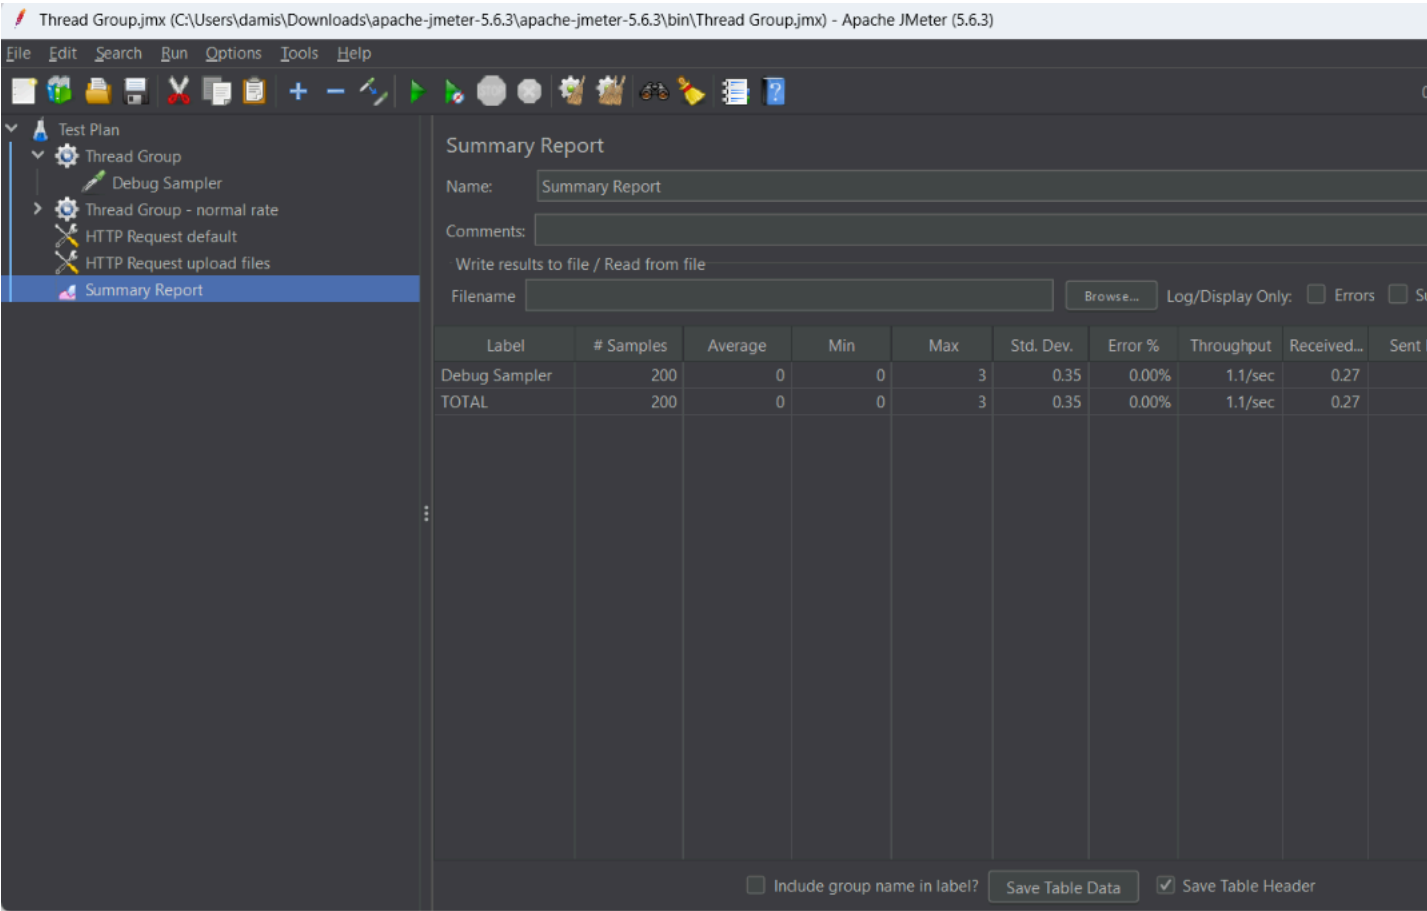

Test Case Id:	136
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Load test on the app as on device paired to Android emulator on a real server
On normal rate with heavy downloading while normal app usage

Preconditions
Pair device with Android emulator
Jmeter open set server as speedtest.tele2.net

STEPS

#	Action	Expected value	Attachments
1	Pair device with Android emulator		
2	Set Jmeter as follow: Thread group - user as 100 \ seconds as 180. Click play on top bar		
3	Do a normal usage of the app, scroll the phone, make touch gestures, upload a normal file, make a chat	App remain stable, all the elements scale proportionally with same resolution and no delays. Total error percentage on Jmeter summery report under 1%

Test case [137](#): Load test device level - test on Jmeter and Android emulator - normal rate - heavy usage

PROPERTIES

Test Case Id:	137
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Load test on the app as on device paired to Android emulator on a real server
On normal rate with heavy downloading while heavy usage on app - download a heavy file (1 GB or more) or perform a video call

Preconditions
Pair device with Android emulator
Jmeter open set server as speedtest.tele2.net

STEPS

#	Action	Expected value	Attachments
1	Pair device with Android emulator		
2	Set Jmeter as follow: Thread group - user as 50 \ seconds as 180. Click play on top bar		
3	Download a heavy file (1 GB or more) via Upload files	Download may take a bit longer than usual but ends without network timeouts. App does not freeze.	
4		On video call, app maintain a minimal FPS that allows a call. In case of severe bandwidth crash system decrees video quality to avoid call drop	

Test case [138](#): Load test device level - test on Jmeter and Android emulator - peak rate - normal usage

PROPERTIES

Test Case Id:	138
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Load test on the app as on device paired to Android emulator on a real server
On peak rate while normal app usage

Preconditions

Pair device with Android emulator
Jmeter open set server as speedtest.tele2.net

STEPS

#	Action	Expected value	Attachments
1	Pair device with Android emulator		
2	Set Jmeter as follow: Thread group - user as 200 \ ramp up duration as 1 / specify thread lifetime seconds as 60. Click play on top bar		
3	Do normal usage on paired app	Response times may be up, but app does not crash. System knows how to handle a situation where server return a temp overload error (S.a 503 - service unavailable) and return a message to user ("The server is experiencing high traffic. Please try again later"). System do not collapse	
4		Error percentage in Summery report are up to 5%	

Test case [139](#): Load test device level - test on Jmeter and Android emulator - scalability rate - normal usage

PROPERTIES

Test Case Id:	139
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Load test on the app as on device paired to Android emulator on a real server
On scalability rate while normal app usage

Preconditions

Pair device with Android emulator
Jmeter open set server as speedtest.tele2.net

Pair devices over Wi-Fi

Pair new devices over Wi-Fi

Pair devices to enable wireless debugging. Other devices can be paired using a pairing code. [Learn more.](#)

Pair using QR codePair using pairing code

To pair an **Android 11+** device scan the QR code from your device

QR scanner available at:
Developer options > Wireless debugging > Pair using QR code

42/48

STEPS

#	Action	Expected value	Attachments
1	Set Jmeter as follow: Thread group - user as 150 \ seconds as 225 \ specify thread lifetime duration at 250 . Click play on top bar		
2	Do a normal usage of the app, scroll the phone, make touch gestures, upload a normal file, make a chat	You are able to see on Graph result that through the increase of users the response time remain stable or increase modestly and not rapidly	

Test case [140](#): Load test device level - test on Jmeter and Android emulator - endurance test- normal usage

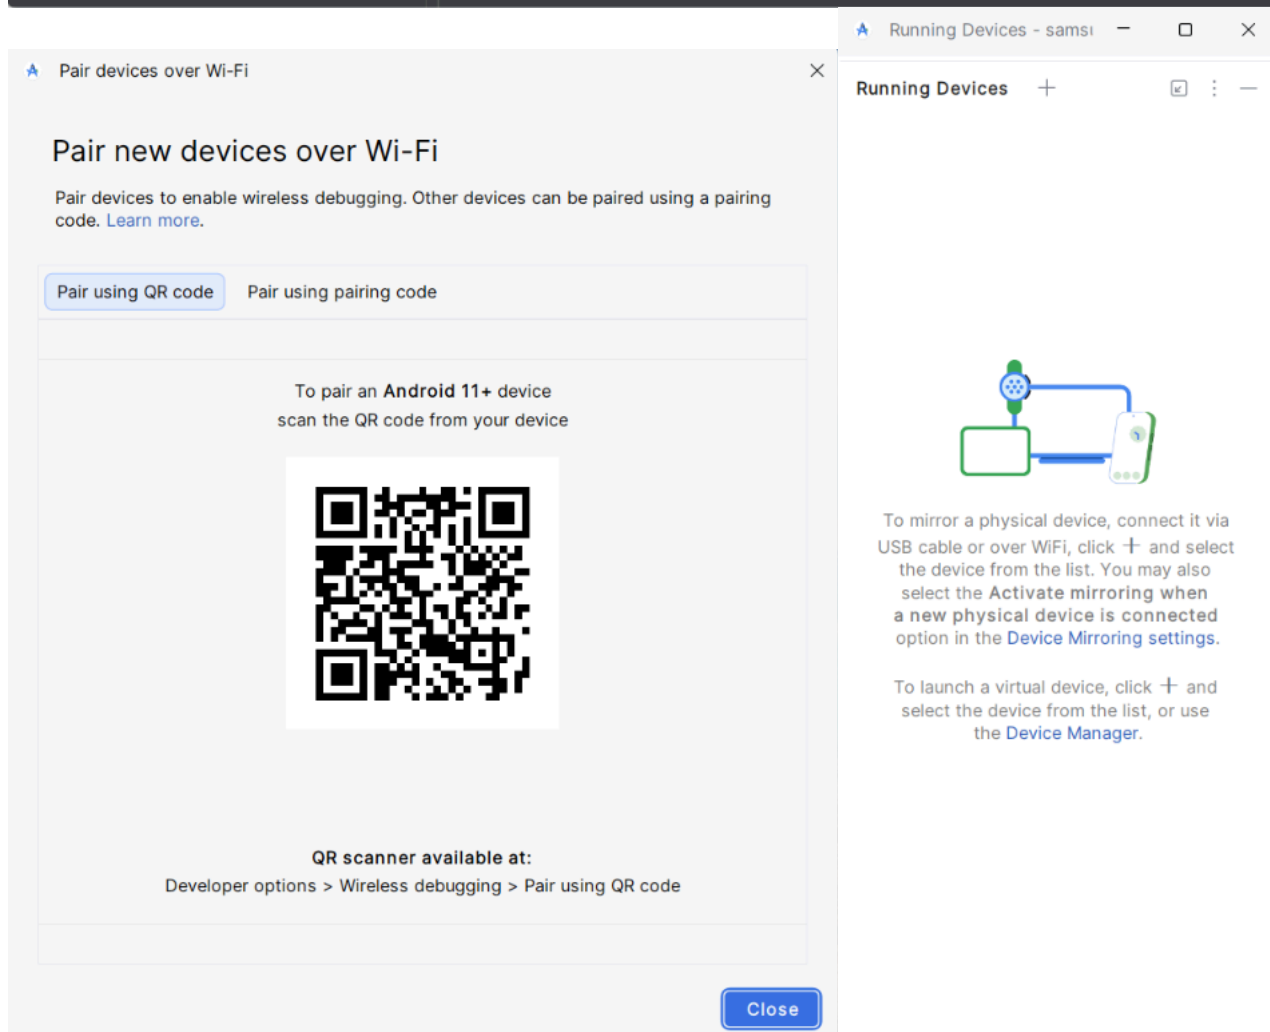

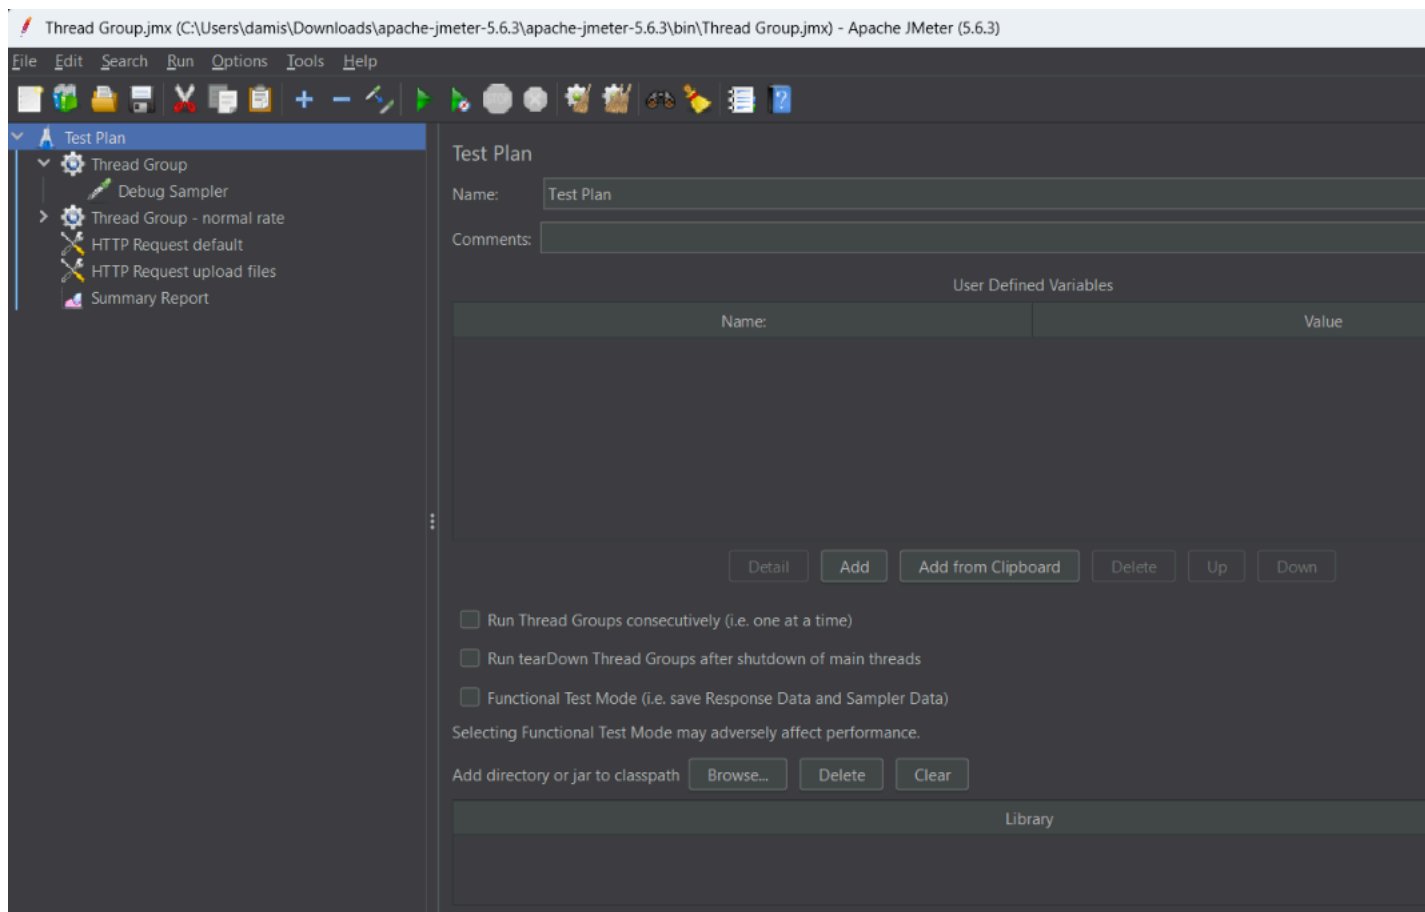

PROPERTIES

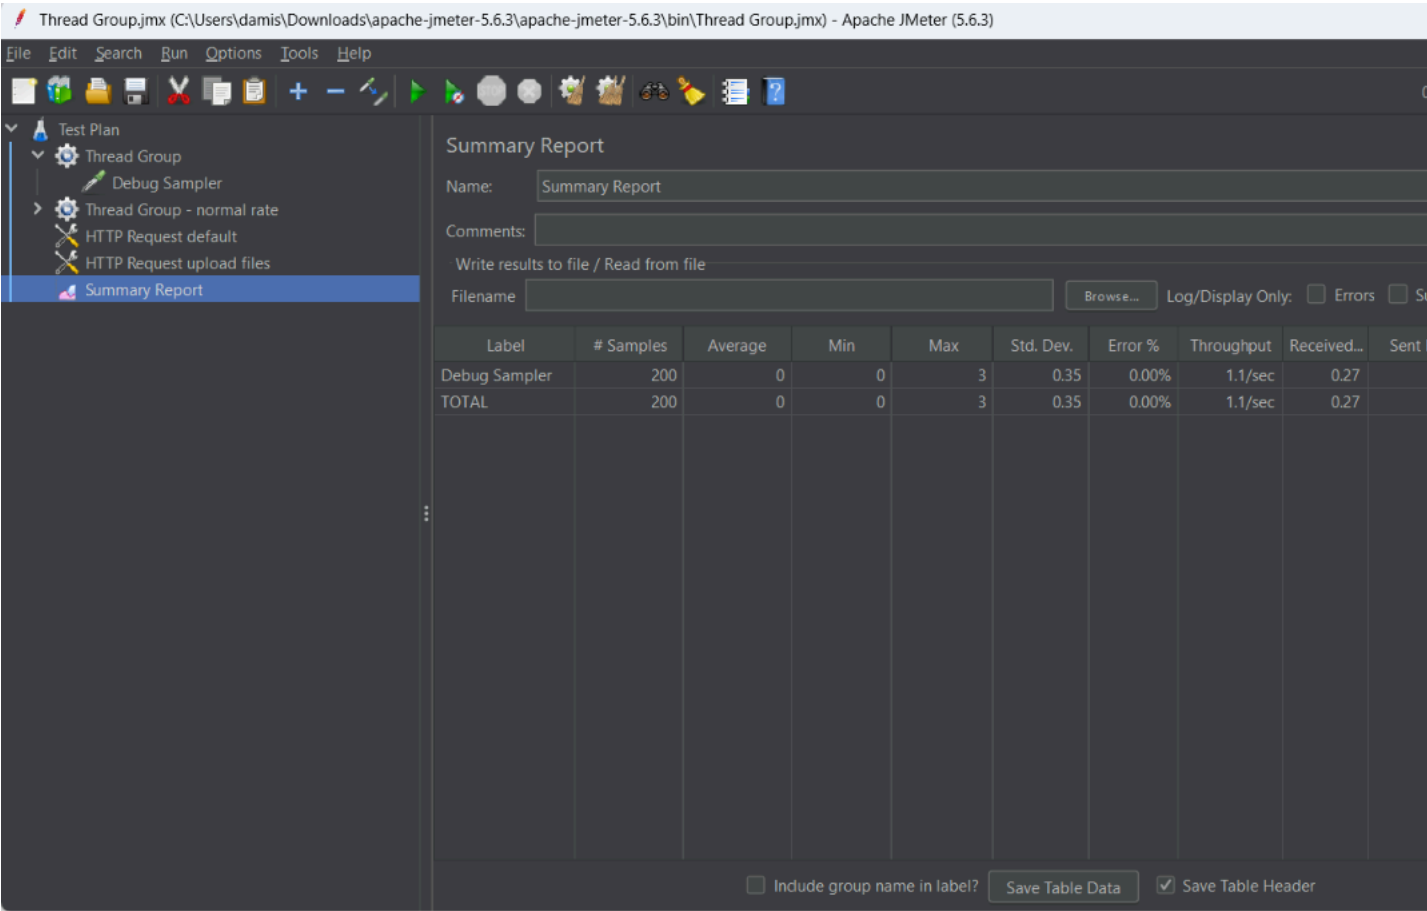

Test Case Id:	140
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Load test on the app as on device paired to Android emulator on a real server
On normal rate with heavy downloading while normal app usage

Preconditions
Pair device with Android emulator
Jmeter open set server as speedtest.tele2.net

STEPS

#	Action	Expected value	Attachments
1	Set Jmeter as follow: Thread group - user as 40 \ specify thread lifetime as 1800 \ loop infinite. Click play on top bar		
2	Do a normal usage of the app, scroll the phone, make touch gestures, upload a normal file, make a chat	The application does not exhibit progressive slowdown over time, and the device battery does not overheat due to improper management of background network processes.	
3		Error percentage in Summery report up to 5%	

Test suite [131](#): Integration

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (1)

Test case [132](#): Connect headphones during video / audio call

PROPERTIES

Test Case Id:	132
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Headphone that are paired with the mobile device

STEPS

#	Action	Expected value	Attachments
1	Start a video \ audio call		
2	Connect to headphone via bluetooth	Sound is being transfer to headset smoothly. Call continues without delays	

Test suite [125](#): Accessibility

Properties	
State:	In Progress
Type:	Static Suite
Configurations:	Windows 10
Test cases (2)	

Test case [126](#): Is there a way to enlarge the screen, fonts and icons?

PROPERTIES			
Test Case Id:		126	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Go to app main page. Try to enlarge the screen with two fingers.	The screen zoom in and the fonts get bigger and smaller by touch gestures	
2	If not, go to setting - appearance and change the screen scale and font size through there	Screen and fonts size changes	

Test case [141](#): Verify that there is a text-to-speech (TTS) features that's reads the content correctly

PROPERTIES			
Test Case Id:		141	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Go to menu - settings		
2	Search for "Accessibilty" or "Audio aid" on setting or appearance	TTS reads all the functions on the app in a normal ratio and without errors	

Test suite [12](#): Security

Properties	
State:	In Progress
Type:	Static Suite
Configurations:	Windows 10
Test cases (4)	

Test case [100](#): The camera opens only with specific approval in video meeting

PROPERTIES			
Test Case Id:		100	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Redirected to new meeting home page		
2	Tap on camera icon	Only then camera opens. Not before	
3			

Test case [101](#): Revoking permissions during an active video call

PROPERTIES			
Test Case Id:		101	
Assigned To:		Daniel Mishor	
State:		Design	
STEPS			
#	Action	Expected value	Attachments
1	Start a video meeting on the app	Video meeting starts	
2	Go to mobile's setting		
3	Go to camera setting and revoke camera permissions	The camera and voice from user immediately shouts down and sends clarification notice to both users. The call itself continue	

Test case [102](#): Is green dot indicator on during video meeting?

PROPERTIES

Test Case Id:	102
Assigned To:	Daniel Mishor
State:	Design

STEPS

#	Action	Expected value	Attachments
1	Click Start meeting	Video meeting starts	
2		Green dot indicator (or other color) is on during the entire meeting and disappears at the end	

Test case [103](#): Does a blocked member can be participant in video meeting?

PROPERTIES

Test Case Id:	103
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

A blocked number's device

STEPS

#	Action	Expected value	Attachments
1	Click Invite participants from a blocked number's device to first device	Access denied. A warning message received	

Test suite [128](#): Permissions

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (2)

Test case [129](#): First usage of video \ audio call - does Permission prompt pops?

PROPERTIES

Test Case Id:	129
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

A device where hasn't started a video \ audio calls yet

STEPS

#	Action	Expected value	Attachments
1	Start a video call on a device that doing so for the first time	A Permission prompt pops aligned in center of the screen. The rest of the screen is dimmed	
2			

Test case [130](#): A refusal to permit audio or video to audio \ video call

PROPERTIES

Test Case Id:	130
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

A device where hasn't started a video \ audio calls yet

STEPS

#	Action	Expected value	Attachments
1	Start a video call on a device that doing so for the first time	A Permission prompt pops aligned in center of the screen. The rest of the screen is dimmed	
2	Click "Don't allow" on video / audio	The call hasn't start, a message is sent to both devices with a clear explanation. The app do not collapses and continue normally	

Test suite [13](#): Network

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (1)

Test case [121](#): Change network during video call - test on Android emulator

PROPERTIES

Test Case Id:	121
Assigned To:	Daniel Mishor
State:	Design

SUMMARY

Android emulator downloaded
MEGA app downloaded and installed in the emulator

STEPS

#	Action	Expected value	Attachments
1	Go to the app on the Android emulator		
2	Go to Extended control. Set the network to Full		
3	Start Video call through the emulator with a second device		
4	Change the network to 5G or UMTS	The video call continues smoothly with out any interruptions or delays	

Test suite [14](#): Device behavior

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test suite [18](#): Offline mode

Properties

State:	In Progress
Type:	Static Suite
Configurations:	Windows 10

Test cases (2)

Test case [134](#): try to upload a file on offline mode

PROPERTIES

Test Case Id:	134
Assigned To:	Daniel Mishor
State:	Design

STEPS

#	Action	Expected value	Attachments
1	Open the app while device is on offline mode		
2	Click upload file	detailed indicate message pops. Upload don't start	

Test case [135](#): try to start a video \ audio call on offline mode

PROPERTIES

Test Case Id:	135
Assigned To:	Daniel Mishor
State:	Design

STEPS

#	Action	Expected value	Attachments
1	Open the app while device is on offline mode		
2	Start video \ audio call via contacts	detailed indicate message pops. Call don't start
